

Idea

Dash is digital cash you can spend anywhere. Use Dash to make instant, private payments online or in-store using our secure open-source platform hosted by thousands of users around the world. DASH combines three important functions: Instant payments in less than a second, DASH ensures your activity history and balances are private and security due to over 4,800 servers hosted around the world.

Glenn Austin: CFO

UDJINM6: Lead Developer

Evan Duffield: Strategy Advisor

Perry Woodin: Advisor

Roadmap

Update (2018-06-14) -- The roadmap is largely outdated and the Dash Core Group management is working on a new, updated version, which we intend to release as soon as it's ready.
